‘Love Me Tender', Lend Me Digitally

Expanding Collections Access through the HathiTrust Resource Sharing Pilot

Shannon Monroe - Head of Lending

Robyn Weisman - Head, Resource Sharing

Created with AI

What's Your Tale, Nightingale?

UC - Berkeley

- Flagship institution of state of California
- 15,260,793 physical holdings as of 24/25
- 22 libraries across campus*
- Off-site storage facility - SLFN
- 12 FTE, 15 student staff
- 25/26 ILL activity :
    - Borrowing: 28,809 filled requests
    - Lending : 22,593 filled requests
- Proud new member of the Atlantic Coast Athletic Conference

University of California System

- 10 campuses, 2 offsite storage facilities
    - 75,761,456 physical holdings as of 25/26
- Connected via Automated Fulfillment Network (AFN)
- Migrated to Tipasa in 2025; utilize Alma/Primo (NCIP)
- Completely separate from the California State University (CSU) system

CDL/HathiTrust Connection

UC Contribution to Hathitrust : 4,846,915 items as of September 2026

95% scanned for Google Books project, 4% are through the Internet Archive, and 1% is local digitization

63% are books, and 36% are serials. The rest are comprised of maps, musical scores, mixed materials, and computer files.

BROWN

Getting into a Groove!

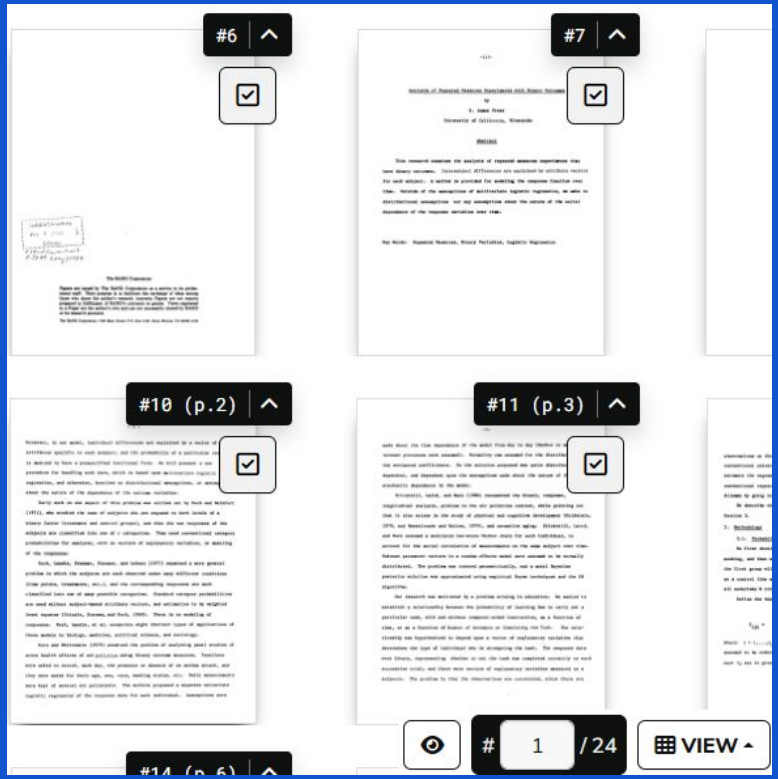

Lending Workflow

- Review New Copy Request Queues
- Confirm potential fulfillment meets HTRS Pilot requirements / Terms of Agreement
- Ensure staff are logged in using the Resource Sharing role vs Member role for Registered Access
- Cross-Check HathiTrust.org for OCLC Number, ISBN, ISSN, Title, etc.
- Download requested pages → Drop file(s) → Update requests
- Update internal tracking spreadsheet

HathiTrust Resource Sharing - Registered Access

Razz Your Berries!

Impact for Borrowing Institutions and Patrons

- Expanded e-resources - Full View vs Limited Access
- Turnaround time improvement
  - Retrieval of off-site materials reduced
- Borrowing libraries do not have to be a HathiTrust member

The Living End!

Impact for Lending Staff

- Reduction in retrieval and reshelving time of physical materials
- Reduction in repeated handling of physical material pulled for scanning; preventing additional wear and tear on library resources
- Timing of the extended Resource Sharing access post-pilot coincided with our RapidILL implementation - facilitating faster service

It's a Real Drag, Daddy-Os & Cool Cats!

The Bringdowns for Lending Staff

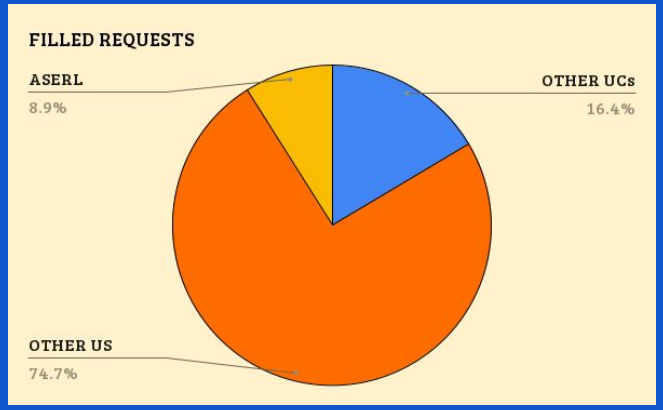

- Systems & Catalog disconnection - additional staff time spent cross-checking Tipasa, RapidILL, UC Library Search and HathiTrust for in-copyright holdings
- Restricted from lending internationally
- Manually tracking statistics

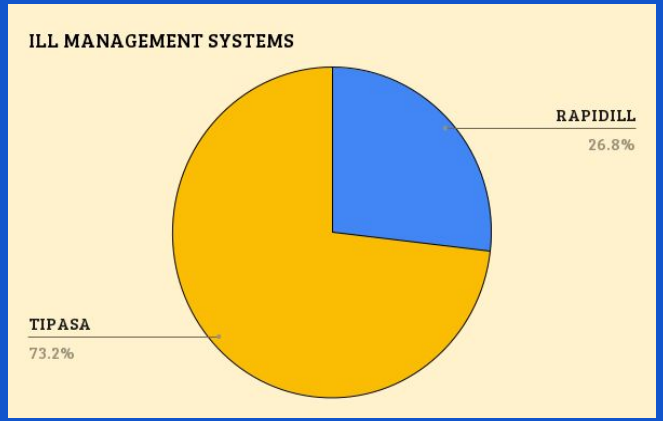

THE SKINNY!

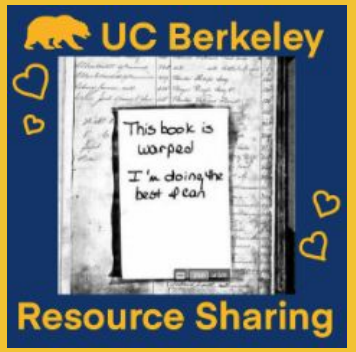

September 2025 - September 2026

- Systems: Tipasa, RapidILL
- Total number of Borrowing Libraries Loaned to: 119
- Total number of requests filled to other UC campuses: 37
- Total number of requests filled to Non-UC Libraries: 168
- ASERL member institutions requests filled: 20
    - Emory University, UGA, VCU, etc.
- RapidILL requests filled: 55
    - *Go-Live March 2026
- Tipasa requests filled: 150

For the Borrowers

- Copyright Section 108
- For Hathi, we lend as one UC:

Item Link	Original Source
Full view	University of California

- Libraries have access to and can share the scan if they own it; they do not have to be the digitizer on the record
- Scans can also be used for document delivery
- Wide-scale rollout from Hathi : soon!

*** STRICTLY BUSINESS ***

Resource Sharing Division

Thank you!
